Beautiful and Functional Automatic Hospitality Doors

DESIGN APPEAL AND FUNCTIONALITY

As a hotel or restaurant owner, you know the importance of providing a warm, welcoming environment for your guests and a great *first impression*.

One of the first things your customers will notice is the appearance and functionality of your entrance. That's why it's essential to invest in quality automatic doors that not only enhance the appearance of your building but also provide convenience and safety for your guests.

Our [Door Services locations](#) have the perfect solution for any door opening, whether it's for a hotel, restaurant, or any other facility. Our automatic doors are easy to operate and maintain, with a low long-term cost of operation.

We understand the importance of keeping your doors in top condition, which is why the products we provide require minimal maintenance and repair expenses. You'll have peace of mind knowing that our doors are built to last and provide a great return on investment.

CUSTOM SOLUTIONS

Our experienced sales and installer teams can provide customized door solutions that meet your specific needs. We take into account factors such as building design, traffic flow, and accessibility when designing your hospitality entrance space. Our door installation services are quick and efficient, with minimal disruption to your business operations.

By investing in automatic doors, you're sending a message to your customers that you care about their safety, comfort, and overall experience.

Why Door Services Corporation for Your Hospitality Doors?

We use automated door systems by Horton Automatics that are unmatched in quality, design, and safety.

PLEASING AESTHETICS - Horton door systems may be specified with custom finishes in a wide range of colors and wood grains with superior durability and color retention.

USER FRIENDLY - Easy hands-free operation for use with luggage, a baby stroller or simply provided added accessibility. This is also relevant for deliveries.

LOWER MAINTENANCE COST - Robust door designs and heavy-duty metal frames offer superior structural integrity and results in much lower long-term maintenance costs.

ENERGY SAVINGS - All our doors have strong and rugged weather seals that stand up to heavy wind and even hurricanes, as well as high foot traffic.

VIRUS PREVENTION - Harmful viruses can be spread by touching contaminated door handles. Automatic Doors keep your guests healthy!

Revolving Doors for Hotel and Restaurant Entrances

[Door Services Corporation](http://www.doorservicescorporation.com) offers several revolving door systems that are perfect for areas that experience heavy traffic. The Horton AutoFlow, Grand, and MiniGrand can handle the above-average movement while providing energy savings. These models can be had in a center shaft or center core vestibule design and feature smooth and continuous rotation.

We also offer security revolving doors that feature one- and two-way security, which can be used in a variety of security settings, including those that require high levels of protection. Features can include glass that is bullet-resistant, systems that prevent piggybacking and tailgating, and matless designs.

Automatic Sliding Doors for the Hospitality Industry

Door Services locations install sliding door systems for hotel and restaurant applications of all kinds. The selection of options is virtually limitless. The doors are engineered with the standout smallest header in the sliding door industry today. This is the secret to Horton's beautiful look and hair-line joints.

Horton Doors are manufactured to advanced wind load requirements and air infiltration specs and can be implemented in heavy commercial settings. Customers can expect long-lasting, quiet mechanical operation in even heavy traffic conditions.

We also offer a frameless design with tempered glass that allows the interior of your hospitality business to let natural light in.

Automatic Swing and Folding Doors

We offer a wide variety of Folding and Swing Door Systems for hotels and restaurants. The construction, repair and maintenance of our swing doors is done with no compromises to quality and usability. A Horton door will keep working well and retain its good looks for the comfort and pleasure of your patrons.

Our swing doors come with adjustable opening and closing speeds, obstruction sensing, Push-N-Go activation and other usability and safety features. They are available as single, pair or double doors with a choice of in-swing or out-swing and left- or right-handed operation. They are offered as manual, ADA low energy and full power swing doors. Finally they can be offered as Fire Doors and installed as part of your overall fire protection plan.

Finally, we offer folding access door systems. These doors are commonly found in hallways and corridors that require wide openings in a narrow space. Magnetic locks are available with the fold-out option.

Access Control Systems

Our hospitality door offerings integrate well with a large variety of access control systems. This allows us to provide a complete service offering including:

- Electronic locking systems
- Mobile key solutions
- Hotel room door locking
- etc.

24/7 Emergency Service and Repair

Sometimes accidents happen and cause a security risk or hinder the traffic to your hotel or restaurant. If that happens, call our emergency automatic door repair service. Our service technicians are available 24/7 to make sure the safety and security of your building is restored as quickly as possible.

Preventative Maintenance Programs

Many of our customers choose to get our technicians to come out regularly for preventative commercial door maintenance on their automatic doors. We prevent issues from happening and keep your doors working safely and efficiently. Another advantage of our maintenance contracts is the discount our clients receive on labor and service during normal business hours as well as for after-hours service calls.

For more details on our Maintenance Program offerings, visit our website, www.doorservicescorporation.com and click on the branch location nearest you.

Call your local branch and one of our service technicians will be dispatched to your building with all tools and parts needed to do almost any repair.

🔥 Fire Door Inspections 🔥

Fire door inspections are the first step toward fire door compliance. Fire doors must be tested and inspected on an annual basis. A ruling of non-compliance could have tragic consequences.

In order to protect against the spread of fire and smoke within, into, or out of buildings, facility managers need to implement preventative maintenance and fire door inspection programs in accordance with local and national standards. Fire door failures in an emergency can happen due to lack of maintenance, physical damage to the door, the closure, guides, tracks, or by obstacles blocking the fire door. Each of these put employees and customers at risk in case of a fire emergency.

In Final

Overall, investing in automatic hospitality doors is an excellent way to improve your facility's aesthetics, safety, and convenience. Door Services locations provide custom solutions that meet your unique needs and requirements. Our doors are designed to be both functional and visually stunning, providing a great first impression to your guests. With our low long-term cost of operation and expert installation services, you can trust our doors to provide reliable performance for years to come.
